Like Morning Dew

Hood's Sarsaparilla Freshens, Strengthens, Cures

Heart Palpitation—Distress in the Stomach—That Tired Feeling.

"I am glad to state that Hood's Sarsaparilla has done me lots of good. I was subject to cramps in the stomach, liver complaint, indigestion, palpitation of the heart, and that tired feeling. Two years ago I gave Hood's Sarsaparilla a trial. I have not been without a supply of it from that time. It relieved me wonderfully, and now when I feel the least uneasiness I resort to Hood's Sarsaparilla, and it always gives me immediate relief. I could not do without it, and several of my neighbors have used it upon my recommendation and found it an excellent medicine.

Doing them good after all other medicines failed. I am also highly pleased with the effects of Hood's Pills. As morning dew refreshes

AN OLD COLD.

Is Chronic Catarrh, the Worst Disease Known.

The first stage of catarrh is commonly called catching cold. It may begin in the head, nose, throat or lungs. In the majority of cases no attention is paid to a cold, therefore nearly half of the people have chronic catarrh in some form. To neglect a cold is to invite catarrh.

The second stage of catarrh is sometimes called an old cold. If in the head, there is roaring, cracking in the ears, periodical headache, and confusion of the senses. If in the nose, discharge, sneezing, noisy breathing, and bad breath. In the throat it produces enlarged tonsils, bawking, sore throat, hoarseness or weak voice. When the catarrh reaches the bronchial tubes and lungs it produces cough, pain in the chest, expectoration, night sweats, loss of flesh and shortness of breath.

A cold in the head, which a single bottle of Pe-ru-na will cure, soon becomes a case of chronic catarrh, which will require many bottles to entirely cure. A sore throat, which one bottle of Pe-ru-na will cure, soon becomes chronic pharyngitis or enlarged tonsils, which will require many bottles. A slight cough, which, without a vestige of doubt, would soon disappear with the use of Pe-ru-na, becomes chronic bronchitis, which requires a persistent use of Pe-ru-na for some time. There are a great many cases of consumption each year due directly to a neglect of coughs, colds, etc., which, if Pe-ru-na had been kept in the house and used according to directions, would have been prevented.

For a free treatise on catarrh, coughs, colds, consumption, and all diseases of winter, send to The Pe-ru-na Drug Manufacturing Company, Columbus, Ohio.

Go to Hansman & Rick and call for their 1891 hand-made Bourbon. You will find it matured well, palatable and strictly pure.
